RükTECH Motorcycle Coatings

RükTECH has race-proven coatings for your Motorcycle to keep it running at peak performance. With today's track bikes and air cooled motorcycles, high temperature ceramic coatings are paramount to performance. Call today and see how our coatings will make your Motorcycle the best on the street, track, or best of show.

Custom Black-Out Packages

Benefits of RükTECH Polished or Black Coating:

- Increased Component Life, Reduced Operating Temps
- Superior corrosion protection
- Performance Gains over non-coated parts
- Black, Gray, and Polish colors
- Excellent Impact Resistance
- Will work on New and Used Components
- Will not turn Blue, Oxidize, or Stain, like Chrome or Paint
- Peace of mind that your Motorcycle is running at its very best

Black Out Packages and Powder Coating:

- Black-Out Packages available with ceramic for exhaust and powder coating for other visible components. Custom powder coating colors available as well.

No more chrome discoloration.

CALL 801-783-2325 TODAY

Benefits of RükTECH Piston and Bearing Coatings:

- Applicable to New or Used Pistons
- Increased life on all internal engine coated parts
- Increases Radial Tension Life of the Rings by preventing heat soak
- Enhances Flame Propagation and decreases oil coking
- Eliminates Cold and Hot Sticking
- Internal coating on the piston can increase oil shedding
- Lower running temperatures on Bearings
- 5x to 10x more Bearing life
- Increased oil retention and protection from heat and pressure

Just great looking pipes.
